

Christmas Order Deadlines 2026

Christmas is approaching and, to help you plan this busy season as efficiently as possible, we have prepared our Christmas Schedule.

As all our products are handcrafted and fully personalized, they require production time. During this time of year, the significant increase in orders makes it essential to adhere to the established deadlines. For more efficient order management, we recommend placing smaller orders throughout the season rather than grouping all projects into a single cart. This will allow you to serve your clients more quickly and ensure deliveries are completed within the expected timeframes.
